

Hello,

Welcome to the Trinity family!

Since reception, I have been a loyal student at the Trinity Primary School and I'm really happy to be going onto the secondary phase and I hope you are excited to join Trinity too.

I really love our School because it is a diverse and accepting community and the lessons we learn are not only important to understanding the subjects, but in our everyday lives too. Learning is exciting and challenging here.

My favourite subjects are Art and English because I am a creative person and love to draw and write stories. I can't wait to go in to year seven and learn these skills in greater depth.

Trinity is amazing in so many ways but what I appreciate the most about the school is how much we respect and celebrate our differences but come together as one big family.

At Trinity, we have a house system. The 4 Houses are Gabriel, Zadkiel, Michael and Raphael. The Houses are named after angels. I am a member of Gabriel. You will be in a House when you arrive at Trinity and this is a great way to get involved with competitions and challenges, and to have another identity in school as well as being 'a Year 7'.

At Trinity we are provided with lots of opportunities. It's great to learn new skills and take part in the wider school life. Two of the clubs I am involved in include art, choir and drama. I enjoy doing clubs because you meet a lot of people who share the same interests as you and you can express yourself so much in the variety of clubs on offer. I can't wait to see all the other clubs at Trinity secondary!

As much as I am excited to enter Trinity Secondary, I am a little nervous too. It's a whole new building, with whole new people. You probably feel the same way, I'm sure everyone does but I want you to know it'll all be ok. If you ever need help, I'll be there.

I can't wait to meet you,

Amelia.

Hi!

I have been in Trinity Primary since the school first opened. I am really excited to be going into the secondary phase. I am proud that I went to Trinity Primary and I am sure if you are joining now, you will soon feel the same way.

Trinity is a great school: it has kind teachers and fun pupils. Everyone is very friendly and it is a real family atmosphere where no one gets left out.

My favourite subject is break - I'm just joking! But I have learnt a lot in the playground! Computing and maths are really my favourite subjects. I like computing because you're able to express your ideas and make them come to life. I particularly enjoy coding computer games, which I've been doing a lot of in lockdown on Minecraft and creating worlds in Fortnite. I like maths as well because I enjoy problem solving.

If you're a Harry Potter fan you will know all about their house system (Gryffindor, Slytherin etc.) In Trinity we have the same thing, but the houses are named after God's angels: Gabriel, Zadkiel, Michael and Raphael. Some may not be as well known as others, but are all very special and an important part of Christianity.

I am a student of purple house - Zadkiel. Many of my friends are in different houses but that doesn't matter, you can still be friends. However, there are house competitions so for them you are required to give it your all and win for your house! My house is very good at sports and has won the Primary sports cup the most times.

Outside of class there are many other things you can get involved in. I am a member of the chess and karate clubs. I'm also in the choir and play in the band. There are many additional activities to choose from so I'm sure you will find something to interest you.

I'm really looking forward to going into Trinity Secondary, it is a great school and I'm sure you will enjoy it too. I look forward to meeting you in September.

Hello! I am in year 6 at Trinity Primary.

I hope you have been ok and have stayed safe during lockdown.

I have loved being at Trinity Primary and I am excited about making the move to the secondary. I think you have made a great choice to join Trinity! I think Trinity is a good school and you will really enjoy it.

I love learning at Trinity because the teachers make learning fun. My favourite subject is English because I love reading and writing.

We have a house system at Trinity. The four Houses are Gabriel, Zadkiel, Michael and Raphael. The Houses are named after angels. I am a member of Green House (Raphael). You will join a House when you arrive at Trinity too. It's fun and competitive. You will get to do different activities with older year groups.

There are lots of clubs that you can join. One of the clubs I'm in is multi skills where we play lots of different sports.

I'm very excited about joining Trinity but I'm also a bit nervous which I'm sure you are as well. I promise you there is nothing to worry about as Trinity is a really welcoming community.

I look forward to meeting you soon.

Stay safe and take care.

Dear new Year Sevens,

I am a current pupil at the primary and have been there since the first day the school opened. As you may know many students from Trinity primary are going to the secondary and I am one of them. I love school however I am a gamer, I play football and I also play the trumpet. Throughout my years at the primary I have had many opportunities to visit the Secondary so I am familiar with the building. But as you may have guessed this is not about me: this is about you!!

Trinity is a wonderful all through school and I assure you that you will agree with me once you have experienced at least a week at the secondary. There are many after school activities that you will be able to choose from: all through orchestra, sports, fencing and many more. As well as this you will be given a house (Green, Blue, Yellow or Purple). These houses compete on sports day and they help you feel part of a group. The reason why I myself chose Trinity as my secondary school is because I had such a great time at the primary I could not let the fun stop there!

This is what Trinity is like. Most mornings there is a worship (this is basically an assembly) which normally has a "special guest" to talk to us pupils about a unique topic. Many student worry about how strict teachers are. I can assure you from my own experience they are strict but also forgiving and caring. As you may have heard on the news after George Floyd's death there have been many protests about racism. At Trinity we respect all cultures and ethnicities. This is one of the things I love about my school: it is multicultural.

To conclude as you walk into Trinity for the first time, you may be nervous but let me tell you that we are a fun school and respect everyone who walks through the doors.

See you in September
