Headteacher

Mr. David Lucas

Dear Trinitarians

Life has changed over the last few months in many ways. During this unprecedented time our community really has pulled together and we have achieved a significant amount. We are really grateful for the support from the community and are really appreciative of all the thanks given back to us for the work we have done. It really has been a team effort, and yes there has been some ups and downs along the way, but I am extremely grateful and proud of the Trinity family. The pupils positive attitude, the continual support and talent of our parents and the relentless planning and drive from the staff have held us all together. Just to name but a few of our achievements:

- Pupils developed more independent skills and continued to progress at home – a full home learning package was created and adapted due to feedback
- Parents fully supported their children in their learning at home whilst working and doing all the other things parents have to do...
- The school managed to contact all our families throughout this period, with regular contact reaching out to support our whole community
- Teachers have developed their teaching practice trialling out new strategies to engage pupils and families at home
- Staff have worked hard to plan for welcoming more pupils back at school – we are the only school across the whole borough that enabled all primary pupils to return for some face-to-face learning before the summer holiday. We were also the only school to offer 4 weeks of face-to-face learning for our year 10 pupils across the borough.
- Our staff have planned fully for the return of all pupils come September – so that the building and the curriculum is fully ready for learning at the start of September.

My list is not exhaustive, we have achieved so much. At the end of the school year we are saying goodbye to 2 members of staff. Ms Kyriakides is leaving us and going on an adventure of her own. We really will miss her amazing positivity, dedication, drive for improvement and love for our whole community. Mr Omar is also leaving us and will be missed by staff and pupils for his passion and drive with so many different languages. We wish them both well in their future plans. This year we therefore have just under 2% staff turnover, when the average is 15%. The staff at Trinity are an amazing bunch of people, dedicated to continue to develop and enhance the learning journey of all our pupils.

This week a series of letters have been posted out to all families informing them of the start of September arrangements. Each year group is a different bubble so will have slightly different information – so this letter is extremely important. We have put all the letters on our website in case you need it – but please do ask if you need anything clarified. It is important that you read these with your son / daughter so that they understand the expectations for when they arrive. The new year R and 7 pupils will be coming in on the Thursday and Friday, 3rd and 4th of September, for induction. All pupils will then return on Monday 7th of September – please look at the letters for the exact time window you need to arrive in and which entrance you need to arrive at.

Part of a schools continuous journey is to say goodbye to some pupils and welcome others into our school. We had a wonderful celebration event for our year 6 pupils this week. A huge thank you to PAFT for helping organise this. The majority will still be with us in September, but leaving Primary is still an important milestone. For those moving onto pastures new our doors are always open and we would love you to stay in touch. Our year 11 pupils will be back in August to collect their results and we will be running a celebration breakfast for them on this day. We will also do more celebrations when we can. Once a member of the Trinity family always a member. Come September we will be welcoming pupils to our reception and year 7 classes - Our family continues to grow.

It has been a stressful time for the whole community. Please take some time out over the summer period to unwind and enjoy time as a family together. Make many memories, laugh loads and have fun. I look forward to seeing everyone in September. Stay safe and strong

PRIMARY PHASE

Dear Trinity families,

We have reached the end of an extraordinary academic year. No one could have predicted the challenges that 2020 would bring. We are really proud to have done the very best for our pupils as a whole community – as parents, teachers and as leaders. The fact that we were able to welcome back all year groups to school took immense hard work but shows how much we value our pupils' well-being and education.

We have placed a few pictures of our special Year 6 Leavers' worship, where we formally congratulated the pupils on beginning the transition to the next phase of their learning journey. A big thank you to PAFT for contributing the great Trinity scarves, which all pupils received. We wish all of our Year 6 pupils the very best.

We will be sending an email to all parents with information on September opening. The information will also be on the website. There are changes to pick up and drop off times and information on how we are ensuring pupils remain safe so please make sure you read the information thoroughly.

Keep reading with your child, giving them your time and loving them.

I wish you the very best of summers, full of rest and fun, ready for learning in September.

Head of School, Primary Phase
Trinity all Through School

MESSAGE FROM TRINITY'S CHAIR OF GOVERNORS

GOVERNORS OF TRINITY

All Trinitarians

As we reflect on this school year I think we can safely say that the events that transpired were wholly unexpected and there were many twists and turns. 2019/20 was always due to be a significant year for Trinity as it was the year the school finally joined up with children from year Reception to Year 11. When the Primary phase opened 7 years ago, it contained 60 very small children about to start their Trinity journey. It is now full and bustling and we are delighted that over 75% of those children now in year 6 will be transitioning to Trinity Secondary to start the next part of their educational journey. As Governors we wish all these children and those going on to pastures new the best of luck in the future.

The school year started normally with lots of progress in learning led by our amazing SLT who have worked incredibly hard this year to build and embed an all through curriculum. Corona virus certainly threw us a curve ball which made us have to adapt quickly and smartly. I would like to thank Mr Lucas and his whole staff not only for their hard work and extraordinary endeavours to get home learning set up and operational so quickly, but also for their pastoral care of all children, especially those of our amazing key workers, whose parents are working on the front line. We all owe a debt of gratitude to the key workers who worked throughout the pandemic and to the school which has remained open throughout to support them.

The Governing Board would like to thank Mr Lucas and his whole staff for making it possible for as many children to return to school as possible. At the primary this was offered to all the children on a part time basis, which was an amazing feat as most schools could only support a few years return. It has been wonderful to hear the news of each new year group being welcomed back. We also want to wish our incredible Year 11s a very fond farewell and hope that they will all be awarded the grades they deserve and have worked so hard for. We wish them every success in their future destinations. We look forward to seeing what they all achieve next. We are so sorry that our year 6's and 11's haven't had the usual celebratory send offs, but they will always be remembered as extremely resilient young people.

The Governing Board has been involved in all the plans made for the return to school and continues to meet regularly. We are monitoring the return of each year group and reviewing the risks the school has to mitigate to ensure the safe return of children into the building. Throughout the pandemic, Mr Lucas has done detailed logistical planning to ensure the safety of all children and staff. Having just read the extremely detailed September plan for welcoming all years back to school on a full time basis, I want to thank Mr Lucas for all the time he has spent on this. We would also like to say a big thank you to the site premises teams for all their hard work and commitment in making the school a safe place for everyone.

In addition to the Covid 19 planning, the Governors and school have decided that rightful attention regarding recent events and the Black Lives Matter movement needs to be examined within our school community. Our ethos has always been welcoming and respectful to all, however there is always more work that can be done. To that end we have quickly begun to form a working group to explore the many issues specifically facing people of colour. We will be ensuring that our curriculum, ethos and environment is focused where it needs to be. This group has already met and will continue to do so next academic year to retain focus on what will always be an area where we have to be mindful.

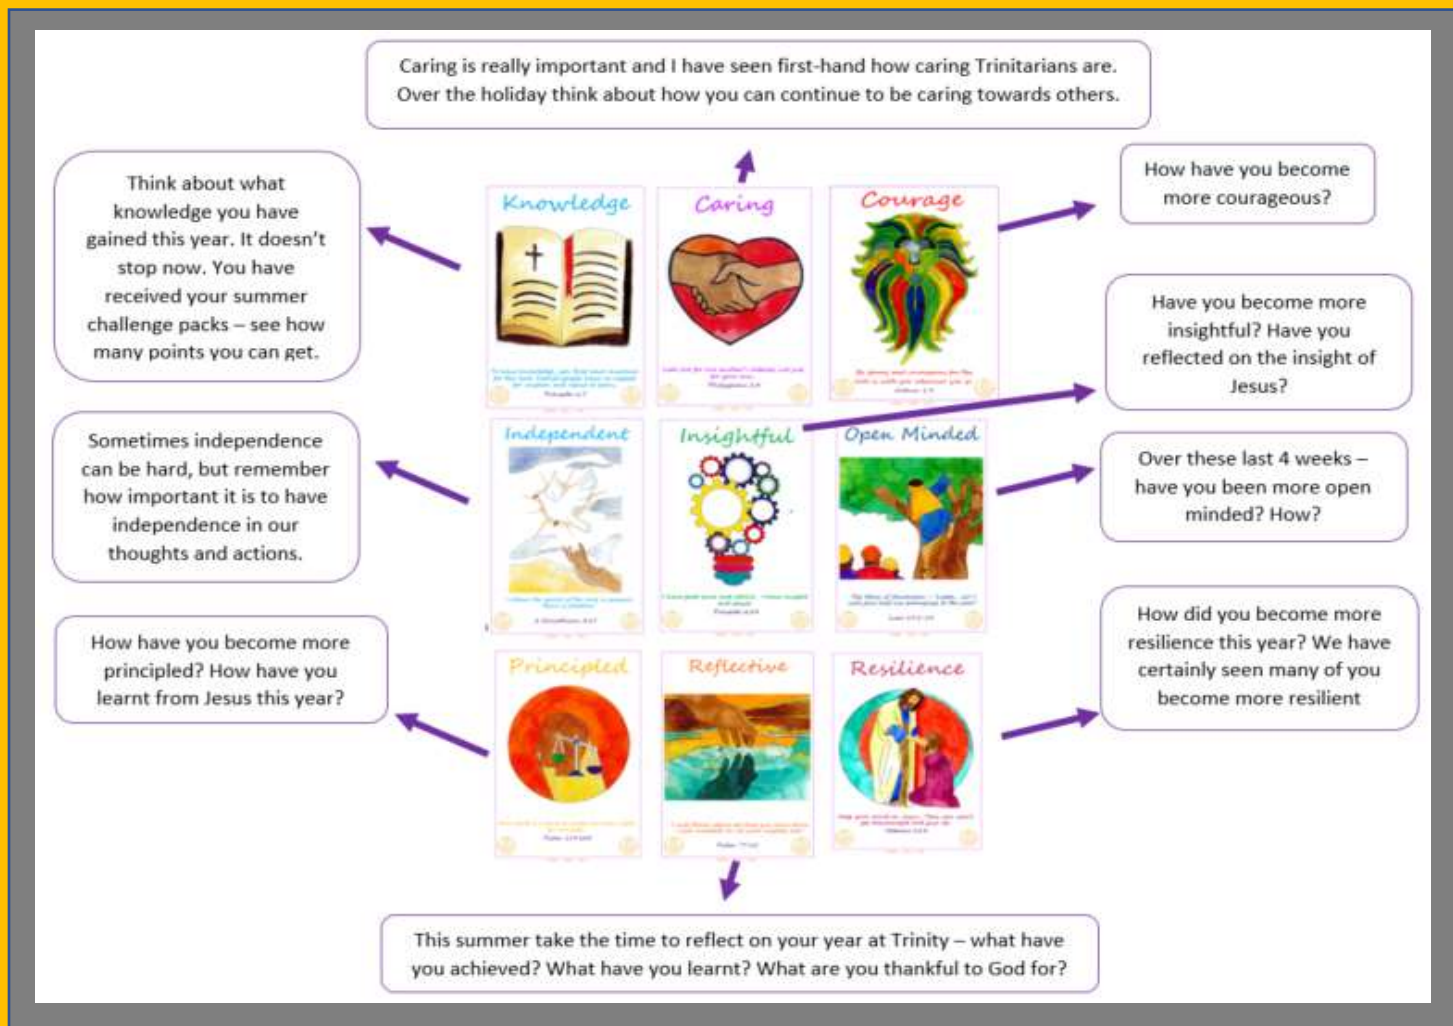

I close by again thanking David for his tireless work during the whole year, but especially throughout the last few months. The Governing body wish all the staff, children and families a lovely, relaxing summer break and we look forward to seeing Mr Lucas and all his fantastic staff back again in September.

What a year it has been, it has been a very exciting year for Chaplaincy at Trinity. We have achieved so much from trips, our active pupil faith teams across both sites and our brilliant speakers who have delivered thoroughly engaging worships. We have had some lovely Eucharist's with our worship band and have raised money for several charities including the Alzheimer's society, not to mention the vast array of food that we have collected across both sites for the AFRIL food bank. I would like to take this time to say thank you to you, our Trinity families for supporting the development and growth of chaplaincy at Trinity and particularly for those who have supported our virtual faith teams and food bank over the last few weeks and months.

This year we have reflected on each of our Trinity characteristics and how those characteristics help us to truly 'live life in all its fullness' John 10:10. Over the weekend and the summer break take a moment to read the questions below and reflect how you have as a Trinity family have lived life in all its fullness and glory.

This week as we finish our theme of being open minded we looked at compassion and some of our pupil faith team made compassion hearts (for full details on how to make yours click on this link - <https://www.churchofengland.org/faith-action/faith-home/faith-home-videos/collective-worship-primary-schools-episode-10-compassion>). Christians believe the Bible teaches that God is a God of compassion. God feels the suffering of people. God's compassion is expressed in his mercy, his kindness, patience, grace, forgiveness and love. Many Christians believe they are called to be a compassionate people. This compassion encompasses both a gut level feeling of sympathy and conviction as well as positive action taken on our part to relieve the suffering we observe. In the Feeding of the 5000 (Read John 6 5-13) we hear how Jesus had compassion for the large crowd and healed the sick. Think of a time in your life when you helped others? Or you stood up for others who were suffering? As we begin the summer holidays think about what actions might demonstrate compassion to others today.... Tomorrow.... This week?

God of compassion,
Be close to those who are ill, afraid or in isolation.
In their loneliness, be their consolation; In their anxiety, be their hope; In
darkness, be their light;
Through him who suffered alone on the cross, but reigns with you in glory,
Jesus Christ our Lord. Amen

Have a restful break, keep safe and we will see you in September.
God bless, Miss Alder

OUTSTANDING TRINITARIAN
BUDDIES

On Wednesday morning we welcomed the Trinity Primary Year 6 pupils to Trinity Secondary for a transition morning.

The students were keen and excited and had a tour of the secondary school, found out where they are to be based in September, completed some activities and were treated to ice creams. They were even presented with their new school ties.

We would like to take this opportunity to *congratulate* our new *Outstanding Trinitarian Buddies* who will be invaluable in September. It will be their job (along with the other Year 6 Trinitarians) to make our students coming from other primary schools feel welcome as they join the Trinity family.

INFORMATION ALL PARENTS

Trinity SUMMER CHALLENGE

"Every pupil in the secondary phase has a summer challenge pack being posted to them which is also available on WeDuc and the Website. There is a wonderful variety of enjoyable activities to complete on here, from listening to a podcast, virtually visiting a gallery or museum or reading some information linked to an area of study. Please do make sure that you check these out over the summer holidays – you will learn so much without even realising it!"

YEAR 7- TRINITY SUMMER WORK CHALLENGES

WHAT SHOULD I DO?

- Over the next few weeks you need to complete as many of the challenges as you can.
- Each challenge is worth a different amount of points 5 points 10 points 15 points 20 points
- You will need to evidence each challenge and show these to your FAMILY GROUP LEADER
- Prizes will be awarded for the pupils in each subject and year group who have scored the most points
- It is really important you try and complete as many as you can as it will help you to revisit what you have learnt this year and the knowledge you must know for next year.

LEARNING - LOVING - LIVING

EXAMPLES

Letter to new year 7 group about why learning a language is important
Please write a letter to the new year 7 group about why learning French is important.

Communication
Send a postcard this summer to Mr GENE. Tell me how you are, if you are having good time, what you do ...

Food Tech with Mrs Blunden

I would like to say well done to ALL the students who cooked and baked their way through lockdown by following the Recipe a day challenge. I am really impressed by your work and present here some more of your work including some rainbow tributes to thank our fantastic NHS for their wonderful dedication in looking after us, our relatives and friends. There will be a display in the food room of ALL your work which we will keep up for the school year so that everyone will eventually be able to come and see it.

RECEIPE A DAY CHALLENGE

YEAR 8 GIRLS (& BOYS)?

GetIT Competition in partnership with Amazon Web services for girls in Year 8

A fully funded programme, the GetIT Competition, which Future Foundations are running in partnership with Amazon Web Services (AWS) for the 2020/2021 academic year.

The programme is aimed at Year 8s and the challenge is for students to design an app for good. They build practical digital skills, learn more about technology, feel empowered to break down gender stereotypes and gain confidence and presentation skills all while being exposed to the world of tech!

Places are filling fast so apply to the programme by [clicking here](#). Please [click here](#) to download a letter from AWS and [click here](#) for an infographic timeline of the programme. If you have any questions please do get in touch.

Amazon Web Services (AWS), the cloud computing part of Amazon. AWS are passionate about introducing more young people, especially girls to the possibility of a career in technology and improving communication and education around diversity within the technology industry.

We are incredibly excited to announce the third year of AWS GetIT, a fully funded programme for schools in the UK for 2020/21.

We would like to invite your school to take part in this programme and give your Year 8 students the unique opportunity to connect with inspiring female leaders in the IT industry, explore a career in technology and gain valuable employability skills.

What is AWS GetIT?

AWS GetIT is an initiative designed to encourage more girls to consider a career in tech, challenging long-standing gender stereotypes within industry.

AWS GetIT invites teams from different schools to enter an app-building competition to solve real issues faced by their school or community. Along the way, participants are supported by a dedicated AWS female ambassador and learn practical digital and IT skills. They experience working as a team, gain self-confidence by presenting ideas to wider audiences and all while being exposed to IT as a potential career.

Since AWS GetIT's launch in 2018, the program has captured young people's imaginations and grown rapidly. By the end of 2020, we will have worked with over 22,000 students and 136 schools. The diversity of our competition submissions reflects the varied issues and pressures facing young people today. App concepts range from managing stress and mental health, encouraging consumption of recyclable products and planning revision and schoolwork.

Timeline Overview:

- **September - October 2020:** AWS Female Ambassador delivers an inspiring assembly at your school on an agreed date.
- **September - October 2020:** Participating students and teachers download the 'Challenge and Teacher pack' to start independently designing their app.
- **October - November 2020:** Participating student teams are invited to a GetIT one day bootcamp at the AWS offices in London.
- **January - February 2021:** Teams receive an in-school visit from their AWS ambassador to support students with their projects and give feedback.
- **March-April 2021:** Teams submit their ideas and selected teams are invited to present their apps at the AWS Summit in London.

To take part, we ask each school to appoint a lead member of staff as a point of contact to ensure smooth coordination of activities, as well as a backup contact. There is no cost to schools participating, except arranging travel to events at AWS. If this is a major barrier to participation, we have a bursary your school can apply for to support travel expenses which we will

Who is eligible?

While this programme is aimed at girls, we welcome boys as well as we are keen for everyone to be aware of the opportunities in the technology industry, and to challenge the gender stereotypes. Just 25% of IT jobs are held by women today and AWS GetIT aims to readdress the balance and drive diversity and inclusion into IT. For this reason, we ask that all teams must have a gender balance of at least 50 % girls to qualify.

We are factoring in social distancing and making plan, but assemblies won't start until October as we want to scope the situation and allow schools to get back to the 'new normal' - online assemblies will be an option.

To take part, we ask each school to appoint a lead member of staff as a point of contact to ensure smooth coordination of activities, as well as a backup contact. There is no cost to schools participating, except arranging travel to events at AWS. If this is a major barrier to participation, we have a bursary your school can apply for to support travel expenses which we will share with you closer to the time.

Teens in Artificial Intelligence Competition

- AI Accelerator 2020 for all year groups to register by 27th July!
- The competition is running between 27th July and ending 7th August

For the 5th year running teens in artificial intelligence are inviting talented and motivated teens aged 11-19 from across the globe to participate in our annual Teens in AI Accelerator. Go to <https://www.teensinai.com/accelerator2019/> to register!

For three weeks in July and August, students will be teaming up to develop innovative entrepreneurial projects using AI for Good, surrounded by mentors from some of the UK's most innovative companies (Microsoft, Quantum Black, Element AI, Google, etc.).

Due to the lockdown regulations, this year's Accelerator will be exclusively online - with an optional **extra bonus week** focused on Machine Learning!

All teams pitch their ideas to judges, and the winning teams will have the opportunity to take their project further. In previous years, the winners went on a fully-funded trip to Silicon Valley, spoke in the UN conferences in Brussels, Paris and Berlin, CogX, EU. Many have joined apprenticeship programmes or went on to study computer science at Oxford, Cambridge, Edinburgh, Bath, Southampton, Westminster, Penn Uni and other universities.

Our most recent online event aimed at tackling Covid-19 related issues was so successful a feature video about it was made by [BBC on YouTube](#).

BOOK OF THE WEEK

BOOK CLUB by Jon Clairmonte

GONE By Michael Grant

In the blink of an eye, everyone disappears. Gone. Except for the young.

There are teens, but not one single adult. Just as suddenly, there are no phones, no internet, and no television. No way to get help. And no way to figure out what's happened.

Hunger threatens. Bullies rule. A sinister creature lurks. Animals are mutating. And the teens themselves are changing, developing new talents—unimaginable, dangerous, deadly powers—that grow stronger by the day. It's a frightening new world. Sides are being chosen, a fight is shaping up. Townies against rich kids. Bullies against the weak. Powerful against powerless. And time is running out: On your 15th birthday, you disappear just like everyone else...

The *Gone* series is a *Lord of the Flies* for the 21st century. In turns breath-taking, harrowing, and utterly terrifying. Its complex characters and moral dilemmas will delight fans of *The Hunger Games*, *Divergent* and *The Maze Runner*. This is dystopian fiction at its best.

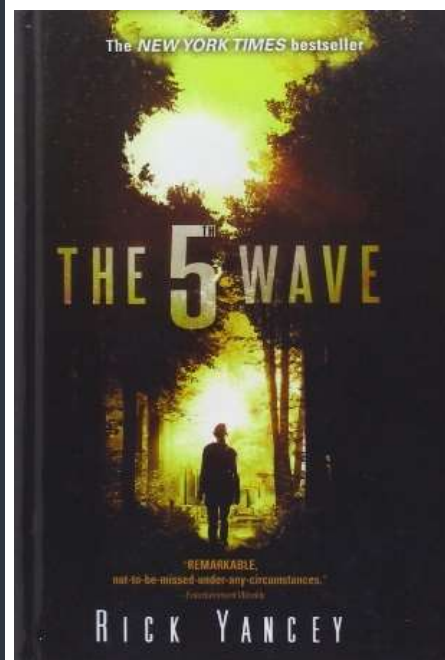

KS 3 and older.

If you liked *Gone* you may also enjoy

THE 5 WAVE

By Rick Yancy

Keyworker children @ Trinity

Collaborative Mural

Trinity secondary school art department worked with the Key worker students to create a collaborative mural. The art department recycled and washed pebbles from one of our fantastic facilities workers, so we really did create an eco friendly piece of work. Students from the key worker provision decorated the pebbles to look like flowers, many students working together. We were able to do this as the students working together are part of the same 'bubble'. We all enjoyed doing something a little bit different and creative, it was a real joy to see Trinity students working together as a family. Although it has been a difficult time, it's moments like these where we see how much closer we have all come together as a community.

Trinity has throughout Covid19 made provision for our keyworker children whose parents continued to work providing essential services to us all. They have been involved in many creative projects, working together in their 'bubbles' and having fun in these troubled times. They are all looking forward to getting back into lessons in September.

PARENTS & FRIENDS OF TRINITY

Message from PAFT to all Year 6's and a sad farewell to Miss 'K'

Good luck year six

We are SO excited to see our first Year 6 complete the primary phase. We are looking forward to welcoming them back and meeting all our new Year 7s in September. If your child is moving into Year 7 we would love your involvement in PAFT to make sure we hear about our secondary pupils and their needs.

Farewell Miss K

It is with a heavy heart that we say goodbye and good luck to our beloved Miss K as she moves to Hong Kong. Thank you to everyone who sent video messages and donations towards Miss K's gift. We were able to buy vouchers for a delicious meal in her new home.

Summer reading - thank you

A massive thank you to everyone who donated books for the primary Summer reading packs. Every single book on our list was donated and we will be sending over 70 books home to help children with Summer reading!
